- ★ With extreme calving ease of CED 17 and BW -2.3 for top 1 & 2% rankings followed by top 10% & 15% WW and YW EPDs respectively, this 5% high marbling carcass queen offers limitless mating flexibility. She will improve your program in any direction you take her.
- ★ Maternal game changer from a donor dam who touts Regis, Final Answer, and Net Worth back to a dam that was a full sister to BR New Frontier 095. Add Peyton & Bronc to this highly proven line up of maternal icons and the result is

manifested in 105's top 1% HP and Milk projections, along with 10% CEM and moderate cow size.

- ★ Performance and carcass merit are driving premiums throughout every phase the industry. 105's donor dam provides an inheritable economic head start with CED 13, Weaning ratio 114, Yearling 111, %IMF 106, & Ribeye 105.
- ★ Separate your herd from the average with this phenotypically stellar female whose elite \$Values are at the top of the charts with 1% \$M and \$W capped with a 2% \$C of 317.
